

## SonicWALL PRO 3060 and PRO 4060 Overview/FAQ

Prepared by SonicWALL, Inc.  
9/15/2003

### Announcement Overview

SonicWALL announces the new PRO 3060 and PRO 4060 Internet security appliances. The PRO 3060 and PRO 4060 are total security platforms for complex networks, utilizing six fully configurable Ethernet interfaces to provide powerful, enterprise-class firewall throughput and VPN concentration. Complete business continuity is ensured through WAN redundancy, hardware fail-over and load balancing. Using object-based management, administrators can configure multiple security zones for rapid deployment and installation.

### The SonicWALL PRO 3060 and PRO 4060 provide:

**WAN ISP Fail-over and Load Balancing.** The SonicWALL PRO 3060 and PRO 4060 offer the ability to designate one of the user-assigned ports to function as a secondary WAN port, delivering highly reliable network connectivity and robust performance. This secondary WAN port can be used in “active-passive” fail-over configuration providing a highly efficient method for distributing or load sharing outbound WAN traffic.

**Hardware Fail-over.** When the PRO 3060 and PRO 4060 are in “hardware fail-over” mode, should the active unit fail, the passive unit assumes responsibility for forwarding traffic, offering greater reliability and redundancy. The PRO 3060 and PRO 4060 feature a dedicated interface that communicates firewall status between the two devices.

**Multiple Interfaces per Security Zone.** The SonicWALL PRO 3060 and PRO 4060 allow network administrators to group multiple physical interfaces into logical “Zones” for ease of management and flexibility. Administrators can assign multiple network interfaces, including the VPN tunnel, to a pre- or custom-defined zone of an associated security policy. Using zones as the logical addressing entity provides tremendous flexibility, scalability and added internal security when deploying SonicWALL firewalls in various network topologies.

**Multiple Configurable Interfaces.** The SonicWALL PRO 3060 and PRO 4060 feature six fully configurable 10/100 Ethernet interfaces, allowing network administrators to create additional WANs, LANs, DMZs and custom-defined zones for greater network configuration flexibility and internal security.

**Object/Policy-based Management.** The SonicWALL PRO 3060 and PRO 4060 allow network administrators to define an object, such as an individual user, a user group, network, service or interfaces, once and then reuse that object wherever it is needed. When security policies or object members change, the administrator can modify the object and propagate the changes instantly without redefining rules, enabling businesses to implement and manage security policies easily and consistently.

**Policy-based NAT.** While continuing to provide standard NAT (many-to-one) functionality, the PRO 3060 and PRO 4060 also expose control of NAT policies to administrators for one-to-one NAT, many-to-many NAT, one-to-many NAT, inbound Port Address Translation (PAT), flexible NAT (for overlapping IP addresses) as well as NAT policies on selective source/destination/source translations. As a result, network administrators have more control and flexibility to support and manage various NAT requirements.

**Hardware AES Support.** The SonicWALL PRO 3060 and PRO 4060 feature hardware-based acceleration support for the Advanced Encryption Standard (AES) encryption algorithm, underlining SonicWALL’s commitment to next-generation open security standards.

## The SonicWALL PRO 3060 and PRO 4060 product and SKU information are as follows:

| SKU               | Description  | SKU         | Description                                  |
|-------------------|--|-------------|--|
| 01-SSC-5365       | SonicWALL PRO 3060 (US/Canada)   | 01-SSC-5370 | SonicWALL PRO 4060 (US/Canada)               |
| 01-SSC-5366       | SonicWALL PRO 3060 (International)   | 01-SSC-5371 | SonicWALL PRO 4060 (International)           |
| 01-SSC-5367       | SonicWALL PRO 3060 (Japan)   | 01-SSC-5372 | SonicWALL PRO 4060 (Japan)                   |
| SKU               | Description  |             |  |
| 01-SSC-5368       | SonicWALL SonicOS Enhanced Upgrade with Support for PRO 3060 (US/Canada)     |             |  |
| 01-SSC-5373       | SonicWALL SonicOS Enhanced Upgrade with Support for PRO 3060 (International) |             |  |
| 01-SSC-5369       | SonicWALL SonicOS Enhanced Upgrade with Support for PRO 3060 (Japan)         |             |  |
| Service & Support |  |             |  |
| 01-SSC-3060       | SonicWALL 8x5 Support for PRO 3060   | 01-SSC-3062 | SonicWALL 8x5 Support for PRO 4060           |
| 01-SSC-3061       | SonicWALL 24x7 Support for PRO 3060  | 01-SSC-3063 | SonicWALL 24x7 Support for PRO 4060          |
| 01-SSC-3064       | SonicWALL International Support for PRO 3060                                 | 01-SSC-3065 | SonicWALL International Support for PRO 4060 |

To purchase a SonicWALL PRO 3060 or PRO 4060 Internet security appliance, contact a SonicWALL-certified reseller. To find a reseller in your area, please visit <http://www.sonicwall.com/howtobuy/index.html> or call SonicWALL at +1 888-557-6642 or +1 408-745-9600.

**Q: Which operating system (OS) do the PRO 3060 and PRO 4060 ship with? Can I upgrade the OS?**

A: The SonicWALL PRO 3060 ships with SonicOS 2.0s (Standard). In order to take full advantage of all the hardware and firmware features in SonicOS 2.0, customers need to upgrade to SonicOS 2.0e (Enhanced). The SonicWALL PRO 4060 ships with SonicOS 2.0e out of the box.

**Q: Can I manage my PRO 3060 and PRO 4060 remotely using SonicWALL Global Management System (GMS)?**

A: Yes. Like all SonicWALL appliances, the PRO 3060 and PRO 4060 can be centrally managed using SonicWALL's award-winning Global Management System.

**Q: Which SonicWALL services and support packages are available as upgrades for the PRO 3060 and PRO 4060?**

A: The value-added services and support packages that SonicWALL currently sells for the PRO 100, PRO 230 and PRO 330 have been extended to include the new PRO 3060 and PRO 4060. Available services include Complete Anti-Virus, Content Filtering Service, Global VPN Clients, ViewPoint and Global Management System. IPSec VPN and VPN Client Sessions are standard with the purchase of the product.

**Q: What support is included with the new SonicWALL PRO 3060 and PRO 4060?**

A: Every SonicWALL PRO 3060 and PRO 4060 comes with a standard warranty, which includes 1-year advanced hardware replacement (return to factory), 90-day email and telephone support, and 90 days of software updates. Extended support contracts are available in 8x5 and 24x7 (local time) and include advanced hardware replacement and software updates. (Note: 8x5 support available in US, Canada, Europe and Japan. 24x7 support available in US and Canada only)
